

**WYOMING**  
**STATE PROTOCOL AGREEMENT**  
**FY 2001 ANNUAL REPORT**

**FIELD OFFICE:** \_\_\_\_\_

Pursuant to Section II of the State Protocol Agreement, the BLM will prepare an annual summary report to the SHPO that describes the implemented actions taken in the previous Fiscal Year. This report will be due to the SHPO in February of each year. Each Field Office operating under this Protocol shall, therefore, be required to provide the following information to the BLM Deputy Preservation Officer:

1. Total number of all undertakings within a Field Office's management area requiring either consultation with, or notification to, the State Historic Preservation Office (SHPO) regarding inventory results. This number would reflect those undertakings for which Class I, Class II, or Class III inventories were completed.

\_\_\_\_\_ Undertakings

2. Total number of acres involving on-the-ground inventory (all Class II or Class III inventories from Item 1; exclude Class I inventory acres). Do not include acres from undertakings where no inventory was conducted due to disturbed surface, low probability to affect historic properties or because of previous inventory.

\_\_\_\_\_ Acres

3. The subcategories below relate to undertakings conducted in each Field Office's management area for which no Class II or Class III inventory was conducted due to the project area having disturbed surface, having been previously inventoried, or because of low probability to affect historic properties.

- a. Total number of undertakings for which no Class III inventory was conducted due to disturbed surface; list each project's name and **estimated** number of acres involved in the project.

- d. Total of all estimated acreage from a, b, and c above.

\_\_\_\_\_ Acres

4. The subcategories below relate to properties (cultural resources) identified within each Field Office's management area during the reporting period (i.e., total number of sites affected by or inventoried because of an undertaking during the fiscal year which is being reported).

- a. Number of newly recorded sites.

\_\_\_\_\_ Sites

- b. Number of previously recorded sites.

\_\_\_\_\_ Sites

5. The subcategories below relate to unevaluated properties, eligible properties, and ineligible properties encountered during the reporting period within each Field Office's management area. This includes both previously recorded resources and

newly recorded resources (the total of a, b, and c below should be equal to the total of Item 4).

- a. Number of unevaluated properties. \_\_\_\_\_ Properties
  - b. Number of eligible properties. \_\_\_\_\_ Properties
  - c. Number of ineligible properties. \_\_\_\_\_ Properties
6. Total number of undertakings for which no resources were identified within the Field Offices management area [i.e., “no finds” or no resources found].  
\_\_\_\_\_ Undertakings
7. Total number of undertakings for which resources [includes historic properties and ineligible or unevaluated properties] were identified within the Field Office’s management area (the total of Item 6 plus the total of Item 7 should equal Item 1).  
\_\_\_\_\_ Undertakings
8. The subcategories below relate to the number of sites for which “findings of effect” on historic properties were reached within the Field Office’s management area.
- a. Number of sites with determination of “no effect” (includes all avoided properties whether they were evaluated or not).  
\_\_\_\_\_ Sites
  - b. Number of sites with determination of “no adverse effect.”  
\_\_\_\_\_ Sites
  - c. Number of sites with determination of “adverse effect.” List the name of the projects containing sites with adverse effect determinations.

9. Total number of historic properties to which treatment measures were applied to reduce effects. As per Section VI.B.6 of the Protocol, avoidance, project redesign, erection of barriers, or fencing of construction to avoid effects are **not** treatment measures. List the name of the projects to which treatment was applied and briefly describe the treatment measure (e.g., data recovery, stabilization, site burial, etc.).

\_\_\_\_\_ Historic Properties

<u>Project Name</u>	<u>Treatment Measure</u>
